Paul & Dawn

"When we viewed the photos Jane and Stephen had taken we couldn't believe how fantastic they were, as it felt like we hardly saw them on the day! Hands on hearts, we love every single photo taken and we would recommend J&S Photography to anyone wanting creative, relaxed and above all fantastic wedding photography! Thanks guys!"

Dawn & Paul May 2009

# Introduction

J&S Photography consists of Jane & Stephen; we are a friendly and relaxed family-run business based in Plymouth covering most areas of Devon and Cornwall. Every wedding day is unique, so we pay particular attention to the small details of your day.

We treat your wedding with the attention it deserves, meeting you personally on several occasions prior to your day so that you are fully comfortable with us as your photographers.

Organising the schedule of your day can be difficult and J&S Photography's wedding packages are completely fashioned to suit your needs. At our initial meeting, you will be able to view examples from our portfolio, and discuss with us; approach, style, and creativity first hand.

*Bobbie & Bradley*

*"They were a fantastic support and did all they could to make our day run as smoothly as possible. I am so proud of our wedding album and so very grateful to Jane and Stephen for doing such a wonderful job - beautiful photo's." Bobbie & Bradley June 2005*

## As the day unfolds

All packages begin with the Bride getting ready before the ceremony, along with the groomsmen and your guests arriving at the venue.

During the ceremony we will photograph in a candid style, taking into consideration that the minister / registrar may have certain restrictions; the use of flash and standing in certain areas may not be permitted - this is important for you to find out prior to the service.

As a newly married couple, before the reception (as outlined on your pre-wedding timetable), you will have a fantastic opportunity to be photographed in and around the venue. These can be a mixture of candid or reportage style images with more directed, artistic imagery. This is a great chance to stop and take it all in and to share a few intimate moments together.

*"Every minute of the day had been captured as a result of having two photographers and some of my favourite images are of the bridal party getting ready. We were so pleased with the relaxed, reportage style photos of not only us, but our friends and family enjoying our special day." Claire & Michael August 2008*

Paire & Michael

## Final stages

We understand that there will always be some group shots required and endeavour to make these as enjoyable, quick and as fun as possible. Like you, the guests will be standing around for these shots and would rather be sharing your enjoyment as newly-weds. With that in-mind we like to set out a maximum number of group-shots and employ the help of the best man, ushers or close family to help these run smoothly (normally to round up uncle Fred drinking champagne at the bar).

In the final stages of the day our photography covers the cutting of the cake, the wedding speeches and documenting the relaxed atmosphere at your wedding breakfast.

This is a typical day for us as photographers but obviously every wedding is individual - so we are whiling to be as flexible as you need, ensuring that you have complete satisfaction when receiving your final images.

## After your honeymoon

Once back from your honeymoon the images will be ready to select and place in an album and/or online gallery. These images are carefully edited and our signature post-production techniques are applied. This process normally takes us around two weeks.

A proof CD can then be posted or delivered to you and we ask that you select a pre-determined amount of images for us to design your album with. (We will explain this process in more detail on meeting).

Stephen designs your album with professional page layout software using no pre-set up album templates, utilising his skill and experience as a graphic designer as well as a wedding photographer, resulting in a contemporary and creative album.

An online gallery is set up and hosted on our website and takes around a week to set up once we have your gallery choices. Images are displayed in a stunning flash gallery like our website portfolio but privately from the public eye.

## Receiving your album

After you have approved the album design (via email in pdf format), the album is sent to SIM2000 Imaging who then print, bind, and send your design.

All albums that we produce are bespoke and can take up to 6 weeks from placing the order to delivery.

A DVD of High Resolution images are also ready upon delivery of your album. All images are carefully colour-managed in our workflow and calibration of all monitors is performed every two weeks to maintain consistency from capture to print.

## Photographic albums

All of our contemporary wedding albums/books are handmade by Sim2000 Imaging and come with a variety of covers ranging from: Metal, Acrylic, Photographic, Leather, Cameo fully designed by J&S Photography. The inside pages can be printed on Matt, Gloss and Metallic.

Coffee table books on silk paper are like those you would buy in a book shop. Unlike the contemporary albums, coffee table books do not lay flat when open, but can incorporate text and graphics across the cover and spine and are printed on uncoated paper.

With our parents and guest books, you can choose from press printed or photographic paper. They are produced as an exact replica of your main album but finished with a photographic wrap, over a black book cloth cover.

## CONTEMPORARY ALBUMS

**297mm x 210mm • A4 Album** | Landscape and Portrait | **Cover:** Metal / Acrylic / Photographic / Leather / Cameo | **Paper:** Matt / Gloss / \*Metallic
